

Installing UnitaryLab software (for simulation of PDEs with quantum algorithms)! (available in French too) Mac and PC and Linux

<https://sciai.randbatch.com:8443/unitarylab/Installation.html>

Installing UnitaryLab software

Activation required on first launch

- Copy your Device ID from the pop-up
- Email it to: hjp3268@sjtu.edu.cn with subject: pdeClient Activation Request
- **You'll receive activation code within 24h**
- Paste the code to unlock full features

Any questions or suggestions?

If you have any questions or suggestions, or if you have quantum algorithms yourselves that would like to see included in this software, please email

- nana.liu@quantumlah.org

Hope you like it!
